

se the word given in capitals to form a word that fits in the space.

Students learning English as a second language are sometimes given a word by their teacher and asked to give an (1) (**EXPLAIN**) as to what that word means; in other words, to provide a (2) (**DEFINE**). The (3) (**ASSUME**) is that if you know a word, you can define it. (4) (**LOGIC**), that might make sense, but in reality it is not always (5) (**REASON**) to assume that. There are words and phrases that even native speakers use in conversation without much (6) (**THINK**) which can lead to (7) (**CONFUSE**) when you ask a native speaker to define them. Take the (8) (**CONCEIVE**) of 'zeitgeist', for example, which has entered English from German. It's (9) (**DOUBT**) much easier to use than it is to define. With a word like 'zeitgeist', it may be more (10) (**SENSE**) to test the student's understanding in ways other than asking them to define it.

(1 mark per answer)

Complete the second sentence so that it has a similar meaning to the first sentence, using the word given. Do not change the word given. You must use between three and eight words, including the word given.
