Determine the highest common factor of

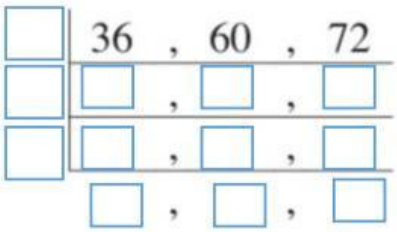

(a) 18 and 24 (b) 36, 60 and 72 (c) 48, 64 and 80

(a)

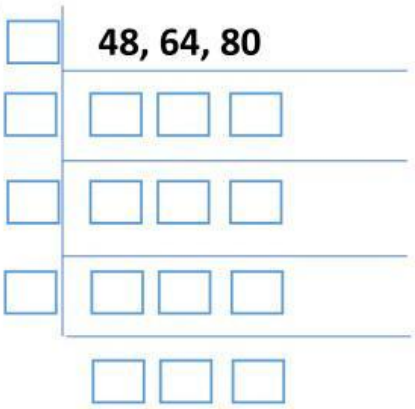

Thus, the HCF of 18 and 24 is ☐ x ☐ = ☐

(b)

Thus, the HCF of 36, 60 and 72 is ☐×☐×☐= ☐

(c)

Thus, the HCF of 48, 64, 80 is ☐ x ☐ x ☐ x ☐ = ☐
