3. Statement: "The battery in my camera is _____. I need to replace it."

- A) charged
- B) discharged
- C) overheated
- D) connected

4. Request: "Is it safe to _____ the computer from the power source?"

- A) plug in
- B) plug out
- C) switch on
- D) switch off

5. Statement: "The _____ in the kitchen has blown. We need to replace it."

- A) wire
- B) outlet
- C) fuse
- D) capacitor

6. Request: "Could you please _____ the lights? It's getting dark."

- A) switch on
- B) switch off
- C) dim
- D) unplug

7. Statement: "The electronic device has a _____ problem. It won't turn on."

- A) breaker
- B) fuse
- C) circuit
- D) transformer

8. Request: "Can you _____ the fan? It's getting too hot in here."

- A) turn down
- B) turn up
- C) plug in
- D) plug out

9. Statement: "We need to _____ the power supply for maintenance purposes."

- A) reduce
- B) cut off
- C) insulate
- D) reconnect

10. Request: "Could you help me _____ this cable to the TV?"

- A) connect
- B) disconnect
- C) insulate
- D) short-circuit

11. Statement: "I have a problem with my _____. It's not charging properly."

- A) plug
- B) socket
- C) battery
- D) switch

12. Request: "Can you _____ the TV? The picture is too bright."

- A) turn up
- B) turn down
- C) plug in
- D) tune in

13. Statement: "The wire is exposed. It's important to _____ it to avoid accidents."

- A) connect
- B) disconnect
- C) insulate
- D) short-circuit

14. Request: "Could you please hand me that _____? I need to connect my laptop."

- A) resistor
- B) adapter
- C) conductor
- D) capacitor

15. Statement: "The power _____ is not working. I can't charge my phone."

- A) wire
- B) charge
- C) circuit
- D) outlet

16. Request: "Can you help me _____ the fuse? It's not providing power."

- A) replace
- B) unplug
- C) overcharge
- D) discharge

17. Statement: "The electricity bill is too high. We need to _____ our energy consumption."

- A) cut off
- B) plug in
- C) reduce
- D) unplug

- A) connect
- B) disconnect
- C) insulate
- D) short-circuit

19. Statement: "I need to buy a new _____. It's essential for storing electricity."

- A) conductor
- B) resistor
- C) battery
- D) capacitor

20. Request: "Can you check the _____? The lights are flickering."

- A) switch
- B) bulb
- C) transformer
- D) wire

21. Statement: "The power _____ has gone out. We need to fix it."

- A) outlet
- B) charge
- C) circuit
- D) supply

22. Request: "Could you please _____ the lights? It's too bright in here."

- A) switch on
- B) switch off
- C) dim
- D) unplug

23. Statement: "The _____ is not working. I think it's broken."

A) battery

C) switch

B) bulb

D) transformer

24. Request: "Can you _____ the device from the power source? It's overheating."

A) plug in

C) switch on

B) plug out

D) switch off

25. Statement: "The _____ in the living room is flickering. We need to fix it."

A) wire

C) fuse

B) outlet

D) capacitor

26. Request: "Could you please _____ the air conditioner? It's getting too cold."

A) turn down

C) plug in

B) turn up

D) plug out

27. Statement: "The electronic device has a _____ problem. It won't turn off."

- A) breaker
- B) fuse
- C) circuit
- D) transformer

28. Request: "Can you _____ the fan? It's not providing enough air."

- A) reduce
- B) cut off
- C) insulate
- D) reconnect

29. Statement: "We need to _____ the power supply to the building for maintenance."

- A) insulate
- B) cut off
- C) connect
- D) discharge

30. Request: "Could you help me _____ the DVD player? It's not connecting to the TV."

- A) connect
- B) disconnect
- C) insulate
- D) short-circuit

Good luck!
