If you **are** not

I don't **exist** without you

No matter how much I try and I **can't get** you out of me

I only manage to die

If you are not

What's going to happen to me?

And I can't forget you

You live in me

I can't live anymore

If you're not here...

if you are not there

If you are not

I don't exist without you

No matter how much I try and I can't get you out of me

I only **manage** to die

If you are not

What's going to happen to me?

And I can't forget you

You **live** in me
