

Ficha 4: Número Racional

1) Arrastra cada gráfico con su fracción correspondiente

$$\frac{10}{6}$$

$$\frac{2}{3}$$

$$\frac{4}{8}$$

$$\frac{7}{12}$$

$$\frac{11}{8}$$

$$\frac{9}{4}$$

PROHIBIDO RENDIRSE

2) Une con una línea la fracción con su representación gráfica

$$\frac{1}{3}$$

$$\frac{1}{5}$$

$$\frac{1}{2}$$

$$\frac{1}{4}$$

$$\frac{4}{3}$$

$$\frac{5}{4}$$

$$\frac{14}{5}$$

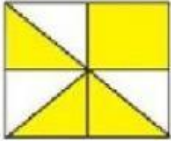

3) Observa, completa y reconoce el numerador y el denominador de cada gráfico

- 4) Escribe la fracción que representa la parte sombreada de la figura y una fracción de la superficie no sombreada.

Figura	En cifras	
	Parte sombreada	Parte no sombreada
	<div><div></div><div></div></div>	<div><div></div><div></div></div>
	<div><div></div><div></div></div>	<div><div></div><div></div></div>

- 5) Escribe con números las fracciones mencionadas:

a) tres quintos =

b) dos décimos =

c) cinco novenos =

d) once doceavos =
