

# ¿How to Do Laundry?

Separate clothes by colors and Types of fabric. For example, you may have batteries separate for linens, colored clothing and delicate garments.

**OPEN THE WASHING MACHINE DOOR AND MAKE SURE IT'S CLEAN AND EMPTY.**

**CHECK THE POCKETS OF YOUR CLOTHES TO MAKE SURE THEY ARE EMPTY.**

Place the first load of laundry in the washing machine, filling it to about 3/4 full.

Refer to the detergent's instructions for the appropriate amount based on the size of the load and the level of soiling. Pour the detergent into the designated compartment of the washing machine.

Choose the right wash cycle for the type of laundry you're washing (e.g., normal, delicate, or fast cycle). Select the water temperature according to the care instructions on the clothing labels.

If you want to use fabric softener, add it to the appropriate compartment of the washing machine according to the product instructions

Close the door of the washing machine and press the start button to start the wash cycle.

Once the cycle is finished, remove the clothes from the washing machine and proceed to dry them according to your preference (in the dryer or hanging them out).
