

# AT THE FAMILY MARKET! ★ ★ ★ ★

We are going to watch a video of a girl showing the products she bought at the family market.

Make a list of the products she mentions and also say the name of the container of each product.

## PRODUCTS:

A lined paper template for listing products. It features a red margin line on the left and three binder holes along the top edge.

## CONTAINERS:

A blank brown paper template for listing containers. It has a torn edge at the bottom.

## ROLE PLAY:

Now, let's imagine we are in a supermarket and you want to buy a product. Play the role of customer and ask a classmate or the teacher about the product availability, prices or quantities of sugar and salt. Have fun!
