

Reading. Here's a chart comparing three computers based on various specifications:

Computer Model	Processor	RAM	Storage	Graphics Card	Price
Computer A	Intel i7	16GB	512GB SSD	NVIDIA GTX 1660	\$1,200
Computer B	AMD Ryzen 5	8GB	1TB HDD	AMD Radeon RX 580	\$900
Computer C	Intel i5	8GB	256GB SSD	Intel UHD Graphics	\$800

Fill in the gaps with the appropriate comparative or superlative form of the given adjectives.

- Computer A has a _____ (fast) processor than Computer B.
- Among the three computers, Computer C has _____ (small) storage capacity.
- Computer B has a _____ (powerful) graphics card than Computer C.
- Computer A is _____ (expensive) than Computer B and Computer C.
- Computer C has the _____ (little) RAM capacity.
- Computer B has _____ (few) USB ports than Computer A and Computer C.
- The price of Computer C is _____ (low) than the prices of Computer A and Computer B.
- Computer A has _____ (large) screen size than Computer B and Computer C.
- Computer B has the _____ (heavy) weight.
- Computer C has _____ (advanced) cooling system than Computer B.

WRITING

1. Can you explain the differences in storage capacity between Computer B and Computer C?
2. Is Computer A worth the higher price compared to the other two?
3. Which computer has the most expandable storage options?
4. How does the graphics card in Computer B compare to the others in terms of gaming performance?
5. Which computer would you recommend for multitasking and running resource-intensive software?
6. Write a sentence using a comparative adjective to compare the processors of Computer A and Computer B. Example: The processor in Computer A is faster than the processor in Computer B.
7. Create a sentence using a superlative adjective to describe the graphics card of Computer C. Example: Computer C has the least powerful graphics card among the three computers.
8. Form a sentence using a comparative adjective to compare the storage capacities of Computer B and Computer C. Example: Computer B has more storage than Computer C.
9. Write a sentence using a superlative adjective to describe the price of Computer A. Example: Computer A is the most expensive among the three computers.
10. Create a sentence using a comparative adjective to compare the RAM sizes of Computer A and Computer C. Example: Computer A has greater RAM capacity than Computer C.
