

Hi guys!

Today on Divas Can Cook, I have a very special guest with me, my niece Judah.

Say hi Judah!

Hey!

Today she's going to be helping me make this fun and colorful unicorn ice cream along with these s_____c_____. This was such a fun project. Let's go!

Okay, so here are all the ingredients that we're going to need to make the base for our ice cream. Very, very simple ingredients. The first thing we're going to do is pour our heavy w_____c_____ into the bowl. Make sure that it is cold because we did it when it was warm and it took forever, didn't Judah?

It took so long. It did. It would not cream up. And there's our v_____ extract going in. You can use different extracts if you want to, but I wanted it to be vanilla. And next we're going to add in s___s___. Regular old sea salt, that's all. Dump that right into that bowl and now we're just going to mix. And this is the part that took forever because it was warm you guys. You have to make sure that it's cold. There's my camera crew. This is my first time that Isaac actually recorded my video. I think he did pretty good. What do you think Judah?

He did good.

He did. I was like, wow. Okay, so you see we kept on switching off because our arms were burning. And one thing I noticed when I would leave the room, look what happens. Y'all see them? They would act crazy as soon as I left the room. Look. I love it. But okay, next we're going to a__ in this sweetened condensed milk. Just dump that right into the bowl. And this was the perfect time for an impromptu floss lesson because I have got to learn how to floss y'all.

Wait, where'd my hands go? It's bad. There it is. Wait, can you stop it? I stopped. There it go. Wait, I want to see it. I want to see it. Put my floss like this right here. Yeah, I want to see it. Uh huh. I want to see it. I can do it fast. Okay. What's wrong? What's wrong? Do it again.

They are so crazy. So much fun. Okay, so now I'm just going to go ahead and stir in that sweetened c_____m___ until it is free of streaks. We don't want any streaks in this bowl, alright? Now we're going to place it into four different bowls.

What was your favorite part about this re_____, Judah?

Putting the food coloring in and decorating the cones.

Oh yes, that is coming up next. Matter of fact, it's coming up right about right here. There's our f___ c_____. We are using the neon food coloring. You can use whatever color you want. But for unicorn ice cream, I really like having those bright, fun, girly unicorn colors. And they went ahead and just m_____ u_____ all the colors. I love them. They're so pretty. What's your favorite one?

Pink.

I like the purple. I think the purple is so pretty. Pink is pretty too. But yeah, you can make them as dark as you want. I kind of went with like a medium shade. I didn't want to go too dark, not too light. But once you have all of that food coloring mixed in, you have your four beautiful colors, we can now start arranging the colors. And the way I do it, I just put the four colors right there. I put my pink in. I put my green in. Or my yellow, whatever color that is. I guess it's green. And then I add my purple. And then I add my blue. Where's that blue? There's that blue. Just like this. You know?

And then once you have this part down, you can pretty much just start adding in the colors anywhere you want to. I just plop it on in just like that. You can swirl it around if you want to. But we just kind of just d___ them wherever we want it to. And that kind of creates a nice little beautiful swirly effect. Okay, there's my green going in. You see I'm just like dropping them wherever. Oh, and I almost forgot to mention, if you want your ice cream to kind of have that birthday cake f_____ that most unicorn themed items usually have, you can go ahead and add in a little bit of b_____ f_____. But yeah, we just wanted plain vanilla, so we left out the buttercream frosting. And now Judah is s_____ this around. That looks so fun.

It was really fun.

I know, it looked f___ swirling it like that. I love that. Don't swirl it too much, though, because then it'll start mixing the colors. And then we add in some little sprinkles on top just like that. So next we're going to cover it up and then place it into the freezer. And meanwhile, we can start working on our glittery cones. This part is optional, but it's so fun and it's pretty, and unicorn ice cream needs g_____.

So what we did was we got s___c_____s___, and we made a very, very super thin, super thin layer, you guys. You don't need a lot, around the rim of the cone, and then we just sprinkled it with these colorful sprinkles, and then that was it. Very, very easy. You can just do the rim, or you can go all the way down to the bottom. But that is it. Aren't they cute? They're so a_____.

Okay, it is the next day. Our ice cream is ready, and here is how it looks. So pretty. So pretty. Look at that. And you can let this sit out a little bit just so it can kind of soften up because it will be very, very firm. But this ice cream, it m_____ quick. So if it's a hot day, you might want to go ahead and eat it quickly because it doesn't have any eggs or anything. Nothing fancy dancing. Just very, very basic ice cream that you can make with that ice cream maker. Very, very k__- f_____ . But look at those colors. I love those beautiful, beautiful colors. Nice and bright. So make sure you use a lot of food coloring to get that nice and bright look like this. So pretty. And that is it, you guys. H_____ unicorn ice cream. This was so fun. Did you enjoy this, Judah?

It was really fun. It was.

I hope you guys enjoyed this video. Don't forget to subscribe and check out my other videos later.
