What a wonderful school trip! We went around Kuala Lumpur and visited a few historical places. My favourite visit was the Sultan Abdul Samad Building. It was built in the year 1897. It is located along Jalan Raja in front of Dataran Merdeka or Merdeka Square. In the beginning, the building was used to house the Superior

Courts. The Federal Court, the Court of Appeal and the High Court were accommodated in this building. Later on, it has been shifted to Putrajaya. So, the building is now being used for other government purposes. It is one of the colonial buildings that was built during the British rule in our country.

Answer the following questions.

- 1 Why Sultan Abdul Samad Building is a colonial building?
