## The Job Fair

Yesterday, lots of people **came** to the school to tell us about their jobs. They all **were** in different places doing different things. There was a **filmaker**, an **gardener** and lots of other people.

First, I **went** to an **engineer**. She's got a very important job because she makes buildings and bridges safe. She **checked** the bridge that I cross every morning on my way to school!

I **went** to the **musician**, but I didn't listen to the **musician**. I didn't play the guitar with the **musician**, either. There wasn't time to do everything!

I **met** the **newscaster** the best. She works for the news channel – I **saw** her on TV last night. I want to be a **newscaster** when I'm older.

Listen again and classify the verbs in past according to its sound.
