A manager is updating her group on some problems they've been having with one of the company's product lines. Listen to this excerpt from her informal presentation and say whether the following sentences are true or false. Correct the false sentences.

	T	F	Correct
1 The company is having problems with their new men's cosmetic products.			
2 The problems are in three areas: supply, distribution, and production.			
3 She identifies two problems in the area of supply: the plastic bottle supplier can't deliver the quantity they need and the quality of the bottles is poor.			
4 They have had to return around 14% of the bottles.			
5 They have to take care of the supply problem soon or they'll have trouble with Father's Day sales.
