f. She was ill yesterday. She didn't come to work. (because of)

ACTIVITY 1: Read the text and then write the sentences into the table below, putting them in to the correct columns.

A really bad day

Today I am having a really bad day. It started early in the morning. First, when I was having breakfast my milk spilled on my white shirt uniform so as a result, I had to change uniform. Because of my spill I was really late to school!

Once I got to school, my teacher was really upset because I missed a spelling quiz. I felt really sad because my teacher was angry. At lunch time my friends made fun of me because my uniform shirt was the wrong color for the day. I felt really angry at them because they were being really mean. Later, at recess two boys playing with their ball hit me on my head and as a result my head hurt the rest of the day.

At the end of the day, I had to walk home because my mom couldn't pick me up, I really bad storm started and it started raining, therefore I got really wet and due to wetting get I got sick with the flu! I really hope tomorrow I have a better day.

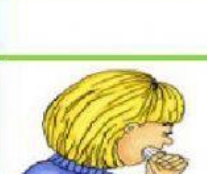

CAUSE	EFFECT
My milk spilled on my shirt	I had to change my uniform
I had to change	
	I missed the spelling quiz
I missed the spelling quiz	
	Because my teacher got angry at me
My friends made fun of me	
	Because they made fun of me
two boys hit me on my head with a ball	
	I walked home
It started raining	
	I got sick with the flu!

ACTIVITY 3:

Our school is working cross-curricular and interdisciplinary projects and one of them is RISK MANAGEMENT "GESTIÓN DE RIESGOS", we want you to take actions to protect yourself and your family during the coronavirus pandemic. Read how to protect yourself and your family.

Coronavirus: What should we know? Look at the following pictures, then label them using the words given in the box.

				
				
Transmitted disease	Spread person to person	Immunity Symptoms (fever)	Immunity Symptoms (cough)	Spread person to person
Source of viral infection (bats)	Source of viral infection (snakes)	Prevent infection (Hand washing)	Prevent infection (Avoid shaking hands)	Respiratory System

ACTIVITY 4: Reading comprehension

Name: _____

Fortnite

The Beginning

In July of 2017, the online game Fortnite was released. The goal of this popular video game is to be the last person standing in a live-action showdown. One hundred players battle each other alone, with a partner, or in a squad of three to four people. Fortnite can be played on many different systems such as Mac, Windows, Playstation 4, and Xbox. Since it is so easily accessible, and is free for anyone who has access to these systems, it has become one of the most successful video games played today. It is played by more than 125 million people worldwide!

The Game

The game begins as players are dropped from a "Battle Bus," a large, blue school bus that flies high in the air with the help of a hot air balloon. Players are dropped at high speed and are able to steer themselves to land at the most optimum, or best, place on the map.

By using certain controls, players are able to launch a hang glider, which slows the flight of their character. This allows for more time to search the map for a place to land. It is always a good idea to land among building and structures, as there are more materials to collect there!

Players are able to use a pickaxe to knock down structures and collect materials such as brick, metal, and wood. They can use these items to quickly travel throughout the map, protect themselves, or to hide from other players!

The Winner

The winner of the game is the last player standing. There are safe zones within the game; however during each round, a storm comes and the safe zone shrinks in size. Players that are not in this area receive damage during the storm. This means that there is an even smaller playing area, which makes it easier to eliminate others, or be eliminated yourself! Fortnite is a fun and addicting game, and the best part about it is that it is free to anyone that has access to a gaming system!

1. Complete the cause and effect chart

CAUSE

EFFECT

It is easily accessible and free for anyone who has access to the gaming systems.

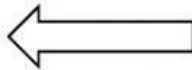

- a. The game has become one of the most successful video games today, and is played by more than 125 million players worldwide.
- b. Players are able to launch a hang glider by using certain controls, which slows their character's flight.
- c. They can use these items to quickly travel throughout the map, protect themselves, or to hide from other players!

2. Complete the cause and effect chart

CAUSE

EFFECT

They can use these items to quickly travel throughout the map, protect themselves, or to hide from other players

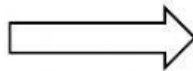

- a. Players are able to launch a hang glider by using certain controls, which slows their character's flight.
- b. The game has become one of the most successful video games today, and is played by more than 125 million players worldwide.
- c. Players are able to pickaxe to knock down structures and collect materials.

3. Complete the cause and effect chart

CAUSE

EFFECT

Players may not be in the safe zone during a storm.

- a. Players receive damage
- b. You can land among buildings and structures
- c. The safe zone may shrink

4. What is the meaning of the word "optimum" as used in the third paragraph?

- a. map
- b. video game
- c. best
