

VOCABULARY REVISION NF2, NF3

- 1) A _____ (two words) is a merchant ship specially designed to transport unpackaged bulk cargo, such as grains, coal, ore, and cement.
- 2) A _____ is a powerful small boat that is used to tow other vessels or barges using towing lines.
- 3) An _____ (two words) is a ship designed to carry oil in bulk.
- 4) A _____ (two words) is a ship used to carry gas.
- 5) A _____ is a ship designed to transport chemicals in bulk.
- 6) A _____ is a vessel with ramps which allows wheeled vehicles to be loaded and discharged without cranes.
- 7) A _____ is a ship used for removing sediment from the bottom of the sea.
- 8) A _____ is a vessel with a flat bottom, often without a system of propulsion (engine), which need to be towed by tugs.
- 9) A _____ vessel is used for carrying different types of cargo, such as bulk cargo, containers, liquid cargo, etc.
- 10) A _____ is a ship that carries refrigerated cargo, such as meat or fruit.
- 11) An _____ is a special type of ship which is designed to break ice and make way in extremely cold climatic regions.
- 12) A _____ is a boat propelled by sails.
- 13) A _____ is an engine-powered fishing boat, used for moving slowly while fishing lines drag behind, sometimes able to sail in shallow water.
- 14) A _____ vessel is a vessel designed to move very large loads that cannot be handled by normal ships.
- 15) A _____ is a fishing boat that uses a trawl net or dragnet to catch fish.
- 16) A _____ is a sail or power vessel used for pleasure, cruising, or racing. Its length usually go from 7 metres (23ft) up to dozens of meters (hundreds of feet).
- 17) _____ is a ship's motion that occurs when the ship leans to one side and then to the other because of the wind or waves. It's motion around the longitudinal axis.
- 18) _____ is a ship's motion that occurs when the bow and stern of a ship move up and down. It's motion around the transverse axis.
- 19) _____ a ship's motion that occurs when the sea's motion makes the ship move forwards and backwards. It's motion along the longitudinal axis.
- 20) _____ a ship's motion that occurs when the ship's bow and stern move from port side to starboard side and vice versa. It's motion around the vertical axis.

- 21) _____ a ship's motion that occurs when the ship moves laterally from port to starboard and/or from starboard to port. It's motion along the transverse axis.
- 22) _____ a ship's motion that occurs when the ship moves up and down. It's motion along the vertical axis.
- 23)A _____ is an area on the coast used for loading and unloading vessels. It may include one or more harbours. It includes container parks, warehouses for storage, etc.
- 24)A _____ is an area where vessels and boats are protected from the weather.
- 25)A _____ is a small port or harbour that is used for pleasure boats or yachts and not for cargo or passenger ships.
- 26)A _____ or wharf is a structure parallel the shore where ships may dock to load and unload cargo or drop off and pick up passengers.
- 27)A _____ or jetty is an elevated structure that extends into the water (perpendicular to the water) where vessels can dock and people can walk.
- 28)A _____ is area of water in a port that can be closed off and that is used for loading and unloading or repairing ships.
- 29)A _____ is like the parking place for a boat or ship. In a port, they are numbered, like the parking spaces in a garage.
- 30)A _____ is a barrier made of rocks that protects a harbour or shore from the waves.
- 31)To _____ (verb) means to sail until you reach a fixed structure that allows you to get out on the land.
- 32)To _____ (verb) your vessel is to place your vessel in the fixed location known as a berth.
- 33)To _____ (verb) a vessel means to secure a vessel to a fixed point with the help of ropes or lines.
- 34)The _____ (2 words) is a machine used for moving the anchor up and down.
- 35)A _____ is a short metal post on the quay or pier used to secure the ship's mooring line.
- 36)A _____ is a thick rope or cable used for mooring or towing a ship.
- 37)A _____ is a machine with a horizontal axis used for pulling in (winding up) or letting out (winding out) a rope.
- 38)A _____ is a machine with a vertical axis that rotates and is used for moving heavy objects.

- 39) A rope that is used to moor a vessel is called a _____ (2 words).
- 40) We use _____ on boats and docks to prevent vessels and berth structures from getting damaged.
- 41) A _____ is a device used to guide a line, rope or cable, to keep it out of the way or to stop it from moving laterally.
- 42) A _____ is a piece of equipment with the shape of a U used to secure an anchor or a mooring line.
- 43) *Esp. Largo de proa:* _____
- 44) *Esp. Largo de popa:* _____
- 45) *Esp. Través de proa:* _____
- 46) *Esp. Través de popa:* _____
- 47) *Esp. Esprín de proa:* _____
- 48) *Esp. Esprín de popa:* _____
- 49) A _____ is another word for "barrel".
- 50) A _____ is like a box made of wood. Pirates put their treasures in this box.
- 51) A _____ is a barrel made of wood that is used to store wine, rum or other alcoholic beverages.
- 52) A _____ is a container made of cloth or plastic where you can store sugar, rice, flour, etc.
- 53) A _____ is like a box, used to carry musical instruments, weapons, or other equipment.
- 54) A _____ is a platform made of wood that can be moved with a fork lift truck.
- 55) A _____ is a box made of wood, or plastic with no lid. It's often used to carry fish, fruit or vegetables or bottles.
- 56) A _____ is a small container used to store milk, juice, etc.
- 57) A _____ is a large package of cotton, cloth, hay, etc. prepared for transportation or storage
- 58) A _____ plan is a plan used to organise and distribute the containers or cargo in a vessel.
- 59) A _____ truck is a vehicle used for lifting heavy loads (often on pallets).
- 60) A gantry _____ is used for loading and unloading containers.
- 61) A dry cargo _____ (two words) is used for loading and unloading dry cargo from bulk carriers.

- 62) A grain _____ is a tall building equipped with machinery for loading, cleaning, storing, and discharging grain.
- 63) A _____ is a flexible pipe for loading or discharging a liquid or gas.
- 64) A _____ is a vehicle used for trimming the cargo.
- 65) A _____ is a strap (*corretja*) that is used for lifting and carrying heavy objects.
- 66) The protective material that is placed around cargo to prevent shifting or damage while in transit is called _____.
- 67) A _____ is a protective covering of canvas or other waterproofed material.
- 68) _____s are elements (like metal rods, twist-locks, etc.) used for securing the containers or cargo to the ship and to the other containers.
- 69) A _____ is a person who works at a port and loads or unloads ships.
- 70) A _____ is a person who works at port. They secure ships to posts and bollards with lines and cables.
- 71) A _____ is a building used for storing goods.
- 72) _____ products are goods that have a short life, such as fruit, fish, etc.
- 73) If a product is _____ it means that it is poisonous.
- 74) _____ goods are products for domestic use.
- 75) _____ goods burn easily.
- 76) _____ are animals and birds that are kept on a farm, such as cows, sheep, or chickens.
- 77) _____ cargo is unstable, like for example some types of gas, gunpowder, etc.
- 78) A _____ is a small rubber boat carried on an aircraft or large boat which can be filled with air and used in an emergency.
- 79) A _____ is a small boat carried by ships in order to save people if the ship sinks.
- 80) A _____ is usually a ring filled with air or light material that floats, designed to help keep someone afloat in the water.
- 81) A _____ boat is a small, fast rescue boat which large vessels, especially passenger ferries and cruise ships, use for man overboard situations.
- 82) An _____ (2 words) is a special type of waterproof dry suit that protects the wearer from hypothermia from immersion in cold water.
- 83) A _____ (2 words) is used to produce a bright light signal in the sky during any emergencies at sea.

- 84) A _____ is something that you wear on a boat to make you float if you fall into the water by accident.
- 85) A _____ (2 words) flare is a flare designed with a parachute to slow the flare's descent so that it is visible for a longer time.
- 86) A _____ boat is an enclosed lifeboat that is launched from the ship without a davit.
- 87) The _____ (2 words) is the place on a ship where passengers should assemble in the event of an emergency.
- 88) An _____ is an LSA used to escape from smoke-filled or toxic environments.
- 89) An emergency _____ (2 words) is a protective device that sprays water into your eyes in order to clean chemicals or hazardous substances from your eyes.
- 90) A _____ is a flat surface used for transporting people who are ill or wounded or dead.
- 91) A _____ is used to locate a survival craft or distressed vessel by creating a series of dots on a rescuing ship's radar display.
- 92) The _____ (2 words) is used on merchant vessels to embark survival crafts.
- 93) An _____ is used to alert search and rescue services in the event of an emergency out at sea.
- 94) A _____ (2 words) is a gun or rocket that throws a line to another vessel or a person in distress.
- 95) An _____ (2 words) is an inflatable slide used to evacuate a vessel quickly.
- 96) _____ (2 words) is the general name for any lifeboat or life-raft used to abandon ship.
- 97) A survival craft _____ (2 words) is a VHF handheld radio that should be taken in the lifeboats in the case of abandoning ship.
- 98) A survival craft _____ (2 words) is an emergency flare that functions as a distress signal and that should be kept in or near the life rafts.
- 99) A _____ (2 words) is a device that sprays chemicals that put out fires.
- 100) A _____ (2 words) is a heavy duty hose for use in fighting a fire.

- 101) If there is a _____, for example an oil _____ (same word), it means that the cargo, or in this case the oil, goes into the sea.
- 102) If there is a _____, or a liquid or gas _____s (same word), it escapes from a hole or crack in a pipe or container.
- 103) A _____ is an accident that happens when two ships or other vehicles hit each other with force.
- 104) _____ is a distress situation in which a ship goes under water.
- 105) _____ is a distress situation in which a ship hits the seabed.
- 106) If a ship is aground, they can try to _____ cargo to make it refloat.
- 107) A Person _____ is a distress situation in which a person accidentally falls into the sea.
- 108) _____ is a situation in which an area is covered with water.
- 109) _____ is an accident in which a ship turns over in the water.
- 110) If a ship or a car has a _____, there is a mechanical failure and the engine stops working.
- 111) If a ship has a _____, it means that it has some inclination because of problems of stability.
- 112) When a vessel is not able to manoeuvre, we say that the it is 'not under _____',
- 113) On VHF, you can say 'Report _____' to know what is broken on a vessel, or what deficiencies she has after an accident.
- 114) When a vessel is _____ it means that it's moving, but not controlled by anyone.
- 115) In an accident, the _____ persons are the people who have been hurt or physically harmed.
- 116) A _____ is a person who has died as a result of an accident.
