Structure and language Features of Hortatory Exposition Text

Group : _____

Member : _____

STRUCTURE AND LANGUAGE FEATURES OF HORTATORY EXPOSITION TEXT

TUJUAN PEMBELAJARAN

1. Peserta didik mampu menyebutkan struktur dan kaidah kebahasaan dalam teks eksposisi hortatori yang dibaca.
2. Peserta didik menganalisis struktur dan kaidah kebahasaan dalam teks eksposisi hortatori yang disajikan.

ALAT DAN BAHAN

1. Smartphone
2. Kuota Internet

LANGKAH KEGIATAN

1. Guru membagikan link E-LKPD kepada peserta didik melalui link yang dibagikan.
2. Peserta didik membaca teks eksposisi hortatori yang dimuat dalam E-LKPD.
3. Peserta didik mengerjakan E-LKPD secara berkolaborasi dengan teman sekelompok.
4. Guru membantu peserta didik yang mengalami kesulitan dalam mengakses link dan membantu dalam pengerjaan E-LKPD.

Kelas:

SMANSA

I. Read the following text below and state which paragraph are thesis, arguments, and recommendation.

The Bad Impact of Using Plastic Bag

You use plastic bags when you go shopping, but what happens to them afterward? You might not think it is a big deal to use plastic bags, but just think of how many people around the world are also using them.

Plastic bags are so bad for the environment and plastic bags are contributing to global warming. Most plastic bags are made out of a substance called polyethylene. It is not just that plastic bags are contributing to climate change. They are also filled with toxic, harmful chemicals that include estrogen-like substances. This is produced from natural gas processing and crude oil refining, as Green Tumble reports, which are non-renewable fossil fuels that produce greenhouse gasses - a huge culprit of global climate change!

Another good reason to stop using plastic bags is that they are toxic. In an Environmental Health Perspectives report, when 450 plastic items, including flexible bags, were studied, it was found that over 70 percent of the plastic products released chemicals that mimicked estrogen. This is dangerous because it means that the plastic has hormone-mimicking qualities. These disrupt how hormones, such as but not limited to estrogen, behave in our bodies and this gives us a hormonal imbalance that can have serious effects on our health.

We should stop purchasing plastic bags and start using any environmentally friendly options instead. Your health and the planet will thank you.

Recommendation

Thesis

Arguments

Sumber teks: Contoh teks di atas mengutip dari Modul Pembelajaran Bahasa Inggris Kemenag.

II. STATE WHAT IS THE LANGUAGE FEATURES OF THE TEXT ABOVE!

1.

2.

3.

4.

III. State whether the following statement is True or False based on the text above!

NO	Statment	True	False
1	The applications using plastic bag is practically and can be taught to stimulate human thinking.		
2	Many people around the world are also using plastic bag.		
3	Plastics are polluting our planet and choking our ocean, harming human health, and damaging ecosystems vital to our livelihoods.		
4	By not using plastic bags, we have saved ourselves and the world		
5	Plastic bags are also filled with toxic, harmful chemicals that include estrogen-like substances		

CHOOSE THE RIGHT ANSWER!

1. The following are including in generic structure of hortatory exposition text above, except..

A. Recommendation

C. Conclution

B. Thesis

D. Aerguments

2. Based on the text above, which of the following is recommendation?

A. We shouldn't buy plastic bag

C. Your health and the planet will thank you.

B. There was over 70 percent of the plastic products

D. The bad impact of using plastic

3. "We should stop purchasing plastic bags and start using any environmentally friendly options instead."
(paragraph 4)

The underlined word may be best replaced by...

A. Bad

C. Appeal

B. Use
