G Reading: Reading comprehension

Read the text about the village and the city and choose the correct answer.

City life or village life?

by Yasemin

Living in a village. Ah, the peaceful surroundings! The little village shop where the shopkeeper knows your name and even remembers what magazines you read. People waving at you in the street. What could be better? Well, a bus service that doesn't make you late for appointments could be one improvement.

Transport can be a problem. My school is some distance from my house and on the other side of a busy road. I usually cycle everywhere but it's too dangerous for me to cycle along a busy main road, so I take the transport provided by the school. It's great catching up with your friends, although it can be noisy with 50 children all talking at once! I'm sure the driver would prefer to drive three of us to school in a taxi.

The city is some distance from my village, but I go there sometimes as there are some great things to see. I've always been interested in history and there are some wonderful exhibitions. I have thought about going walking in the parks, but why would I do that when I live in the countryside? I have a huge park all to myself, and it isn't busy!

I don't visit the city often. Most of my friends live locally. They try to persuade me to go to the city by telling me about the big shops that are there. I only go to the city because I'm having some work done on my teeth and I can't get it done here.

What about the future? My parents want me to stay here, but I'm not keen on living in their cottage for the rest of my life! I'll move to the city when I leave school as there are more jobs there, but the thought of living in a flat makes me uncomfortable. I don't think I could stand the noise, so I'll look for a small house in a quiet area of the city.
