

Hear me speak what's on my [redacted]

Let me give this testimony

[redacted] that you will find

That you are my one and only

No exception to this rule

I'm simple but I'm no [redacted]

I've got a witness happy to say

Every hour, every day

Every heartbeat bears your name

Loud and [redacted] they stake my claim

My red blood runs true blue

And every heartbeat [redacted] to you

Classic [redacted] of boy meets girl

Moving in the same direction

You're not asking for the world

I'm not asking for perfection

Just a love that's well-[redacted]

For passing the test of time

I'm here to tell you

I'm here to stay

Every hour, every day
