

STICK SEASON by Noah Kahan

As you promised me that I was more than all the _____ combined
You must have had yourself a _____ of heart like
Halfway through the drive
Because your _____ trailed off exactly as you passed my exit sign
Kept on driving straight and left our _____ to the right

Now I am stuck between my _____ and the blame that I can't face
And memories are something even smoking weed does not replace
And I am _____ of weather 'cause I see you when it rains
Doc told me to travel, but there's Covid on the _____

And I love Vermont, but it's the season of the sticks
And I saw your _____, she forgot that I existed
And it's half my fault, but I just like to play the _____
I'll drink alcohol 'til my friends come _____ for Christmas

And I'll dream each _____ of some version of you
That I might not have, but I did not _____
Now you're tire tracks and one pair of _____
And I'm split in half, but that'll have to do

So I thought that if I piled something _____ on all my bad
That I could cancel out the darkness I inherited from _____
No, I am no longer _____, 'cause I miss the way you laugh
You once called me forever, now you still can't _____ me back

And I love Vermont, but it's the season of the sticks
And I saw your _____, she forgot that I existed
And it's half my fault, but I just like to play the _____
I'll drink alcohol 'til my friends come _____ for Christmas

And I'll dream each _____ of some version of you
That I might not have, but I did not _____
Now you're tire tracks and one pair of _____
And I'm split in half, but that'll have to do

Oh, that'll have to do
My other _____ was you
I hope this _____ is just passing through
But I _____ it

And I love Vermont, but it's the season of the sticks
And I saw your _____, she forgot that I existed
And it's half my fault, but I just like to play the _____
I'll drink alcohol 'til my friends come _____ for Christmas

And I'll dream each _____ of some version of you
That I might not have, but I did not _____
Now you're tire tracks and one pair of _____
And I'm split in half, but that'll have to do
