

TALKING ABOUT ETHICAL CHOICES

Practice the conversation with a partner. Practice again using the words on the right.

A: I think that's all I need. How about you?

B: Let me just get some apples, then I'll be **ready. done / finished**

A: Why don't you get these? They look nice.

B: Oh, I only eat organic fruit and vegetables now.

A: Really? **Why? Why's that / How come**

B: I decided I didn't want to eat food that is grown using chemicals.

I heard it's not very good for you.

A: **That makes sense. Fair enough / I can understand that**

B: And it's better for the environment.

A: But does that mean you have to **pay higher prices? pay more / spend more**

B: Not necessarily. It depends where you shop.
