Read the text below and complete each blank with *one* word.

B

The longest-living person (1) (OFFICIAL) recorded lived to be 122 years and 164 days old.

In general, the number of people who live to be over one hundred is increasing, especially among women, yet there isn't a single (2) (SCIENCE) who can fully explain this phenomenon. Some of them claim that it's purely a (3) (BIOLOGY) fact.

However, in the developing countries, where (4) (SCIENCE) expectancy is much less. According to (5) (MEDICINE) records, life expectancy for these people is about forty years. (6) (ECONOMICS) progress is slower, life

reasons are mainly responsible for this and as a result a high percentage of the population suffers from malnutrition. One must also (7) (EMPHASIS) the fact that sanitary conditions in developing countries are rather (8) (HYGIENE).

To (9) (SUMMARY), proper housing and sanitation, adequate healthcare and a(n) (10) (NUTRITION) diet play an important part in a person's life expectancy.
