## Reading

## 5 Read and match.

Hi, I'm Chris. I love spending time on the beach and playing with the sand. One day I want to be a scientist, because I want to protect the environment. Last year, there was a lot of rubbish on the beach and there were plastic and glass bottles on the rocks.

The sea is the dirtiest part of the planet, because people throw away so many things in it. Animals like whales and dolphins can't live there anymore. We all need to work together and reduce the waste we create.

## 6 Read and circle T (True) or F (False).

I'm Jenny and I live in a small town. My friends and I enjoy doing gymnastics in the park. This weekend, we picked up the rubbish first, because it was dirtier than other times. It was a sunny day and it was fun. There's also a river near our town and some people like eating the fish. I ate one last night and it was very tasty! There's also a great bakery and sometimes we buy bread and have a picnic in the park. My dad worked in the market, but now he works at the supermarket. He likes it, because he travels over the river to get there. I want to be a bank cashier, because the bank is the most beautiful building in town!
