Interesting to know...

In the USA, a set of natural science subjects is called **science classes**, while in Russia they are divided into **chemistry, physics and biology**.

What is your favourite subject at school? Mine is chemistry! I like writing formulas and solving problems. It's so interesting! Write about your favourite school subject below.

My favourite school subject is _____. I like it because

Write 4-5 sentences.

Fun facts!

Some words in the English language are different. In the UK, «печенье» is called a **biscuit** and in the USA it is called a **cookie**. This happens with some other words, for example:

Russian	British English	American English
квартира	flat	apartment
осень	autumn	fall
каникулы	holidays	vacation

Because of such differences, people sometimes cannot understand each other.

When children have a break at school, they can have a snack. For example, in the USA, children bring **lunchboxes** with food to school. They not only eat their own food, but also share it with their classmates.
