Everybody loves vacations, whether they are for one day or one month! Students especially look forward to their summer vacation. They love that they don't need to get up early for school and can get extra sleep hours.

I have an annual two month-long summer vacation. This is the time when the temperature in our hometown is very high. It is better to use sunscreen when going outside in daytime. In the morning, I often wear trainers and run around the lake in my neighbourhood. I go to the beach with my friends or my family in the afternoon. We just need to pack a swimming costume and a towel because the beach is not far from our town. I want to travel abroad someday but I need to have a passport first. I believe that vacation is a healthy break for everyone.
