1. It is a round bodied, long-necked lute that has four strings, drones and movable ivory bridge to adjust the pitch.
2. It is a single-reed woodwind musical instrument. It has a straight tube and a single reed is its mouth-piece.
3. It is a brass wind instrument consisting of a long metal tube looped once and ending in a flared bell. It has three values.
4. It is a small keyboard instrument with metal plates. These plates are struck by hammers which produce bell-like sounds.
5. The percussion instrument is played with two mallets and consists of a mounted row of turned wooden bars graduated in length to sound a chromatic scale.
7. It is a well-known musical instrument, a circular body and four or more strings.
8. This famous musical instrument is a small portable reed organ. It was perfected by Alexandre Debain of Paris (France) in the 1840s.
6. It is a famous Indian stringed instrument generally made of seasoned gourds and teak wood. This musical instrument has a track of 20 metal fiesta, three to seven main playing strings and 13 resonating strings.
