Located in Metztitlan next to the lagoon at the bottom of the ravine, the Moon Inn is the most beautiful hotel you can find in the area, rated with more stars than all the other lodging options.

One of the things that makes the Moon Inn better than the others is that it has access to its own reservoir where you can safely practice birdwatching and fishing, the water in the reservoir is cleaner than the running water from the faucet at home, you can even drink it! At night you can have dinner at the open-air restaurant that has the most extraordinary view of the lagoon where, during full moon nights, you can see moonlight beams beautifully bouncing from the water and producing the most dazzling light show, in fact, during these days of the year, the place tends to be fully booked because couples decide to get married at night under the moonlight, for this purpose, the Moon Inn offers the most sophisticated catering service and they also hire the best decorators in the state, they elegantly adorn the open air restaurant with some of the most delightful flowers in the region.

It is during October when most weddings take place, this is because people say that October moons are prettier than any other times of the year.

Additionally the rooms are more comfortable than those of other hotels in Metztitlan, visitors have reported that the bathrooms are cleaner and that the beds are newer, therefore your experience at the Moon Inn will be the best, we highly recommend you visit them, you don't even need to stay, you can just visit them and practice horseback riding or birdwatching, if you don't know what to do next weekend, this might be one of the best options out there.

I went to Hidalgo; (2) _____, it is the most beautiful place (3) _____ in my whole life. It isn't as crowded as Mexico City, but it has more attractive places to visit and have fun.

People there are (4) _____ kind. I can't wait to go back and be as happy as I was when I rode horses in El Chico. Well! There were more attractions, but they weren't (5) _____ riding a horse, at least for me. Let me tell you that I also tried different dishes there, and they are more colorful than American ones because the Mexican cuisine contains many different natural ingredients, especially chili.

Oh, I almost forgot about my trip to Tula. I stayed there for a couple of days, it isn't (6) _____ El Chico, but it has very fascinating places like Zona Arqueologica de Tula which was (7) _____ city of Hidalgo; of course, during prehispanic times. Now, you can only enjoy the breathtaking "Atlantes", which I think are as amazing as the carved columns in Egypt. And oh my God! I tried different dishes with insects. At the beginning I didn't find them attractive, but when a lady wearing typical clothes approached me and gave me some toasted grasshoppers, I put them in my mouth and their flavor and crunchiness trapped me. I couldn't believe it! Oh my God. They were (8) _____ anchovies. I think this is (9) _____ I've ever tried. I still feel (10) _____ happy. I just want to go back, try new dishes and of course have fun.
