

79 Compound nouns

A What are compound nouns?

This is common in English: word + word = new word. For example:

police + officer = **police officer** phone + number = **phone number**

bath + room = **bathroom** art + gallery = **art gallery**

- We write some compound nouns as one word, e.g. **bathroom**, but many are two words, e.g. **phone number**.
- Many compound nouns are easy to understand when you know the other words, e.g. **railway station**, **address book**, **first floor**, **dining room**, **bus stop**, **dishwasher**. Sometimes they are less easy to understand, e.g. a **disc jockey** (usually called a **DJ**) is a person who plays music on the radio and in clubs.
- You will meet many compound nouns as you learn English: **past tense**; **past participle**; **phrasal verb** (see Unit 99); **capital letter**, e.g. **ABC**; **full stop** (at the end of a sentence); **question mark** = ?
- With compound nouns, the main stress is usually on the first word, e.g. **phone** number, but sometimes it is on the second word, e.g. full **stop**.
