Spending & Change

Money Problems - Bills

Understand how to set down a bill and evaluate it

All of us have to pay **bills** at times. In a shop; at the supermarket; in a restaurant.

Most shops and restaurants ring up the bill on their screens and print it out for you.

When setting down a bill, try to **line up the decimal points.**

Example :-

When there is a mixture like £3·78 + 47p,

change the 47p to £0·47 first.

6 tins custard at 63p/tin	£3·78
1 tin peaches at 47p	£0·47
Total	**£4·25**

ADSCO's

Adsco Store - Motherwell
0147 553 213
Manager : Davie Brown

2 tins Beans at 45p each	£0·90
2 kg potatoes at 85p/kg	£1·70
3 litres Deli milk at 76p/litre	£2·28
1 pk Taz Washing powder	£4·83
Total	£9·71
Cash	£10·00
Change	£0·29

Exercise 3
