Reading Comprehension and Writing

Student's name: _____ Group: _____

All About Activism

Activism is the effort to try to change a social, economic or politic problem. Activism can be expressed in many ways such as: letters, hunger strikes, art, marches, and social media. Activism can be divided into three types:

- 1. Environmental activism:** Environmental activists fight to stop green areas from being sold, and are against the pollution of the environment.
- 2. Internet activism:** The internet has been used by activists since 1998 to promote their beliefs. It's been an important tool in many situations, like when people in the Middle East and North Africa used social media to protest against the revolutions happening in their countries.
- 3. Design activism:** Design activism creates products that can be useful for starting conversations about important subjects. For example; in Tokyo, an art exhibition talks about the problems of war, climate change, and social problems.

Some important activists have been:

- 1. Mahatma Gandhi:** Protested peacefully for the independence of India from Britain.
- 2. Thomas Jefferson:** Protested against slavery, even though he owned slaves.
- 3. Christine de Pizan:** Was a female author that protested against sexism with her writing, and is thought to be one of the first feminists.

1. Fill in the blanks with words from the box.

expressed feminist polluting

- a) politician
- b) economist
- c) author
- d) mathematician

11. Read the text and answer the following questions.

Fearless Franklin

Rosalind Elsie Franklin was born in Chelsea; 1920. She studied Natural Science in Cambridge and was the first scientist to understand the structure of DNA. She also studied viruses like the polio virus. Even though she was in a male dominated community, she was a fearless woman who was never afraid to speak her mind.

Though Rosalind never won a Nobel Prize, many scientists agree that she should have won and recognize her work and admire her.

Even though she passed away in 1958, she's still an amazing role model for young aspiring scientists.

a) What did Rosalind Franklin study?

b) Did she win a Nobel Prize?

c) Which virus did she study?

5. Read the following problem and give your opinion on how to solve it.

Max is very sad because he was bullied today. Some other kids from his class called him names because of the color of his skin. Max doesn't know what to do.
