LIVEWORKSHEETS

DOLPHINS: THE AGILE AND SOCIAL MARVELS OF THE OCEAN

The dolphin is an intelligent and playful mammal found in oceans around the world. It has a sleek, gray body and a long, curved dorsal fin. Dolphins are known for their agility and can swim very fast.

They communicate with each other using clicks and whistles and are often seen leaping out of the water. Dolphins live in pods and are very social animals.

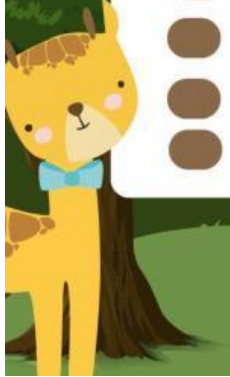

**AFTER READING, HIGHLIGHT THE DESCRIPTIVE

Difficulty level:

HARD

 **LIVEWORKSHEETS**

MAKE YOUR OWN PARAGRAPH <40 POINT>

write a descriptive paragraph about an animal, start by naming the animal in your title. Then, describe the animal's appearance, including its size, color, and distinct body parts. Next, explain where the animal lives, detailing its habitat and any notable features of its environment. Finally, include interesting facts about the animal, such as its behavior, diet, communication methods, or any other unique characteristics. Use these guidelines to create a detailed and engaging paragraph about your chosen animal.
