C. Read the text about Kim. What is her problem?

Hi! My name is Kim. I'm a high school student. I always really enjoy school. My favorite subject is biology, but I like English, too. I usually sit in front of the class so I can pay attention to the teacher. A few students in my class often don't listen to the teacher. They sometimes fall asleep in class! I think that's crazy. I want to do well and become a doctor. We get a lot of homework, but I usually finish it quickly. The homework is hardly ever difficult, and I always get good grades. But a lot of my classmates think the homework is difficult. They often ask me for my homework because they want to copy it. I sometimes let them, but I'm not sure it's a good idea. What do you think?

**Glossary:** biology (n.) : (ชีววิทยา)

I think that's crazy (idm.) : ฉันคิดว่ามันบ้าอะไรว่ะ
