Nobody ....., nobody knows

We are a ....., can't be exposed

That's how it is, that's how it .....

Far from the others, ... to each other

In the daylight, in the daylight

When the sun is shinin'

On a ..... night, on a late night

When the..... is blindin'

In the plain sight, plain sight

Like stars in hidin'

You and I burn on, on

Put two and two 'gether, forever, we'll ..... change

That's ..... we uncover, 'cover, 'cover

My asylum, my asylum

Is in your arms

When the .....gives heavy burdens

I can bear a ..... tons

On your shoulder, on your shoulder

I can reach an endless sky

Feels ..... paradise

We could ..... a universe right here

All the world could disappear

Wouldn't notice, wouldn't care

Yeah, I ..... need you near
