Read the passage.

Tamara has a parrot named Buddy. Every morning, Tamara opens the door of the cage to put food and water for her bird. This morning, when she opened the cage, her phone rang. She quickly went to answer it. When she returned, she did not find Biddy in the cage. She remembered that she forgot to shut the door when her phone rang. Luckily, the doors and windows in her house were closed. She searched everywhere but couldn't find him. Later, she was happy to find him on the top of his cage waiting to get in.

What is the problem?

What is the solution?

Write a solution to each problem.
