

Look at these numbers.

**530    5730    530.7    537**

a Which number has 7 as its hundreds digit?

Answer \_\_\_\_\_

b Which number is 10 times bigger than 53?

Answer \_\_\_\_\_

c Which number is not a whole number?

Answer \_\_\_\_\_

d Which is the smallest number?

Answer \_\_\_\_\_

Look at these numbers.

**55    34    89    26**

a Which is the biggest number in the list?

Answer \_\_\_\_\_

b Write down a number that is bigger than the biggest number here.

Answer \_\_\_\_\_

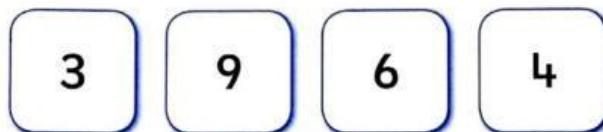

c Which are the two smallest numbers in the list?

Answer \_\_\_\_\_

d Now write down any whole number that is between the two smallest numbers.

Answer \_\_\_\_\_

Look at these number cards.

a What is the smallest possible number you can make using all 4 of the cards?

b Arrange the cards to make 2 numbers whose sum is 85.

$$\boxed{\phantom{00}} + \boxed{\phantom{00}} = \underline{\quad 85 \quad}$$

c Arrange the cards to make 2 numbers whose difference is 26.

$$\boxed{\phantom{00}} - \boxed{\phantom{00}} = \underline{\quad 26 \quad}$$
