

Here are some athletics events and the times taken to complete them.

Draw lines to match each event to its time.

The first has been done for you.

100-metre hurdles

4 minutes

40-kilometre run

13 seconds

1.5-kilometre run

10 seconds

100-metre sprint

$2\frac{1}{2}$  hours

Q2. Here are some of the time taken by a train and the distances covered.

Draw lines to estimate the time for each distance.

15 Kilometers

80 minutes

100 Kilometers

5 minutes

20.9 kilometers

10 minutes

2000 meters

14 minutes
