- 2**  Look at the photographs again and read the text. Complete the gaps with words for comparing, then listen and check.

The main (1) \_\_\_\_\_ between the pictures is that they (2) \_\_\_\_\_ show young people in a learning situation. In the first picture, a child is learning to ride a bike, (3) \_\_\_\_\_ in the second picture a girl is learning to make some kind of sweet or pastry. (4) \_\_\_\_\_, they both show people who are teaching. However, in the first picture the teacher is a parent, (5) \_\_\_\_\_ in the second picture it is a professional. This means the relationship between the teacher and the learner is very different. The pictures also (6) \_\_\_\_\_ because one skill is physical, whereas the other one is more practical. Another key (7) \_\_\_\_\_ between the pictures is that the first is happening outside while the second is taking place inside. Personally, I think the bike riding situation is (8) \_\_\_\_\_ more enjoyable. Maybe it isn't (9) \_\_\_\_\_ useful (10) \_\_\_\_\_ cooking, but for a young child it represents a big adventure. I think having cooking lessons would be more stressful.

- 3** Write four sentences about the photos below, using appropriate words for comparing from Exercise 2.
