I wish – Tom Mcdonald

I wish I wasn't fat.

I wish I wasn't gay

I wish I wasn't _____

I wish that I was brave

I wish, I wish, I wish

With every candle on the cake

That I could quit doing these drugs

But I can't and I'm afraid

I wish that I was smart

I wish that I was rich

I wish it wasn't hard for me

To grow up and forgive

I wish that I could help

I wish I wasn't _____

I wish I was Tom Macdonald

I'd be just like him

I wish I wasn't sober

I miss it when the party wasn't over

Happiness was right around the corner

Every single night was like the best one of our lives, now we're older

The good old days are out of reach I wish that they were closer

I wish I wasn't anxious, and I wish I could fast forward

And I wish I could rewind but they don't make that controller

I wish the nights were longer and I wish the days were shorter

And I wish that I could sleep enough to maintain my composure

I feel crazy, I wish that I was

_____

I wish that I could _____ myself but also be immortal

Take me to the Oracle, I heard the time is borrowed

Can you give me back my yesterdays, I'll give you my tomorrows

Forget all of my morals and just live like I cannot remember sorrow

Before all of the tattoos and the cornrows I was different

I was happy, I was calmer, I was young and full of hormones

Now I'm wishing for a time machine, I'd step into that portal

And be gone

* I wish on _____ stars

Or were they satellites

Maybe they were too far

Ay-ooh, nah nah

I must have blown _____

A million dandelions

Now they don't grow in my yard

Ay-ooh, nah nah

I wish I didn't _____ about the day that I'd be buried

Used to live like I was ready for it, always in a hurry, now I'm worried

All my memories are blurry, I'm just barely turning 30

And the voices in my head are tryna hurt me

The choices that I made make me feel dirty, I was 25 at 13

I was smoking with the seniors, drinking beer and getting flirty

Now the Ativan ain't working I need something even stronger

Give me childhood, my mother and my father and my sister

And a Christmas to make up for all the recent ones I missed

And while I'm touring the country for a living

Give me a hug and a Nintendo and toy box in the closet

Give me everything I wish I had, oh wait, I think I got it

I'm a rapper like I always promised them I would accomplish

This is awesome man, I wish I had a friend to tell

I'd call him and I wonder if I jumped from here if I'd survive the bottom

And would everyone believe me if I told them I had fallen

I'ma jump

*

I wish we were _____ again

Before everything was on _____, hey oh

Things were so simple then

Me, my tree fort, all of my friends

Way back when on Beaver Drive

Where the floor was lava, I could fly

Ayo, wished I was big like them

Never thought I'd wanna be a kid
