Task: Design an Eco-Project

Objective: Create a simple plan to improve your local environment.

Instructions:

1. **Name**: Think of a fun name that shows your project is about helping nature.
2. **Goal**: What do you want to achieve? Example: Less plastic, more trees, better recycling.
3. **Actions**: List three things you will do in your project. Example: Set up a recycling bin, plant trees, and have a clean-up day.
4. **Results**: What changes do you expect? Example: Cleaner schoolyard, more birds in the park.
5. **Fun Element**: Add something fun to your project. Example: A tree-planting party, a recycled art show.
