Always ends the .....

When it was me and you

But every time I ..... somebody new

It's .....déjà vu

I swear ..... sound the same

It's like they .....my skin

Every word they say sounds ..... like him

And it goes .....this

We'll get in your..... and you'll lean to kiss me

We'll ..... for hours and lie on the backseat

And then one random night when .....changes

You won't reply and we'll go ..... to strangers

It's ..... that I hate

How everyone's disposable

Every time I .....somebody new

I feel vulnerable

That it'll ..... change

And it will just ..... like this

Never endin' datin', breakin' up

And when we spoke for .....

Well, did you ever mean it?

How can we .....that this is love

When it goes ..... this?
