A
factors; immense technological progress in the domain of chemistry, coupled with wider cultural
B C
changes, and the pragmatic need to find acceptable substitutes with dwindling supplies of "luxury"
D
materials such as tortoiseshell and ivory. (Cam 5, T2, R)

18. When the Aswan dams were constructed in the 20th century to provide electricity and irrigation, and to protect the huge population center of Cairo and its surrounding areas without annual
A
flooding and drought, most of the sediment with its natural fertilizer accumulated up above the
B C

LIVEWORKSHEETS

dam in the southern, upstream half of Lake Nasser, instead of passing down to the delta.
D

(Cam 5, T3, R)

19. Researchers in San Diego deprived a group of men from sleep between 3 am and 7 pm on just
A B C
one night, and found that levels of their bodies' natural defenses against viral infections had fallen
D
significantly when measured the following morning. (Cam 5, G, TA, R)

20. Computer software can be "exported" without ever loading it onto a ship, simply by transmitting
A B C
it in telephone lines from one country to another. (Cam 6, T1, R)
D

21. The explosion in demand for accommodation in the inner suburbs of Melbourne suggests a recent
A B
change in many people's preferences as where they live. (Cam 6, T2, R)
C D

22. When the number 4 can be registered in the mind as a specific word, independent on the object
A B
being referenced, the individual is ready to take the first step toward the development of a
C
notational system for numbers and, from there, to arithmetic. (Cam 6, T2, R)
D

23. Unfortunately, for maximum benefit, people would probably have to reduce their caloric intake
A
by roughly thirty per cent, equivalent with dropping from 2,500 calories a day to 1,750.
B C
Few mortals could stick to that harsh a regimen, especially for years on end. (Cam 6, T3, R)
D

24. One possibility relates to the ATP-making machinery's emission of free radicals, which are
A
thought to contribute to such age-related diseases like cancer by damaging cells. (Cam 6, T3, R)
B C D

25. Another hypothesis suggests that decreased processing of glucose could indicate to cells that
A
food is scarce and induce them to shift into an anti-aging mode that emphasizes preservation of the
B
organism than such "luxuries" as growth and reproduction. (Cam 6, T3, R)
C D

LIVEWORKSHEETS

26. Certain approaches at group bullying such as "no blame", can be useful in changing the
A B
behavior of bullying pupils without confronting them directly, although other sanctions may be
C
needed for those who continue with persistent bullying. (Cam 6, T4, R)
D

27. In the oil industry, the price increases which hit the market in the 1970s, coupled with concerns
A B
that supplies were running low, led for new energy conservation measures all over the world.
C D
(Cam 6, G, TA, R)

28. Best available seats are in sale for £6 from one hour before the performance for people
A B
eligible for Saver and Supersaver discounts and thirty minutes before for all other customers.
C D
(Cam 6, G, TB, R)
