28: I am happy to hear that you have **left** the singing contest.

A.bought B. attended C. missed D. lost

Read the passage and mark the letter A, B, C or D on your answer sheet to indicate the correct answer

A UFO (Unidentified Flying Object) is any object flying in the sky which cannot be identified by the person who sees it. Sometimes the object is investigated. If people cannot figure out what the object is after an investigation, it is called a UFO. If they figure out what the object is, it can no longer be called a UFO because it has been identified.

Even though UFOs can be anything, people can use the word UFO when they are talking about alien spacecraft. Flying saucer is another word that is often used to describe an identified flying object.

Studies estimate that 50-90% of all reported sightings are identified later. Usually 10- 20% are never identified. Studies also show that very few UFO sightings are hoaxes (people trying to trick other people). Most UFOs are actually natural or man-made objects that looked strange. 80-90% of UFOs are identified as one of three different things: (a) astronomical causes (for example: planets, stars, or meteors); (b) aircraft; and (c) balloons. 10-20% UFOs are other causes, such as birds, clouds, mirages, searchlights, etc.

29.Another word used to describe a UFO is .

A.astronaut B.cooking plane C.spacecraft D.flying saucer

30.How many percent of all reported sights are notidentified?

A.10-20% B.20-30% C.30-50% D.80-90%

31.Most of UFOs are identified as one of the following things except .

A.balloons B.rains C.stars D.clouds

32.Which of the following sentences is NOT true?

A.UFO means Unidentified Flying Object. C.Many UFO sightings are hoaxes.

B.UFO is often used to talk about alien objects. D.half of all reported UFO sightings are identified.
