

Chapter 44

World Famous Environmentalists

There are some of the great environmentalists of the world. Read the clues and write their names:

1. He was an American author. He was famous for his book 'Walder' on civil disobedience and for protection of wilderless.

2. He was a lawyer whose efforts led to supreme court ordering the relocation of more than 200 industries around the Taj, which were producing acidic gases to damage the Taj Mahal's white marble.

3. She was the biologist of the USA who credited for launching Global Environmental Movement and reversing the national pesticide policy in the USA.

4. The famous Indian environmentalist led the Chipko Movement to save trees from being cut.

5. She was the leader of Narmada Bachao Andolan.

6. This Nobel Peace Prize winner of Kenya opposed deforestation and started the Green Belt Movement.
