

### Life on the Farm

Welcome to Sunnybrook Farm! This farm has many animals. Each animal is important.

Every morning, the farmer feeds the \_\_\_\_\_ (1). These animals give us milk. They are big and say "moo!"

Next, the farmer feeds the \_\_\_\_\_ (2). These animals like to roll in the mud and say "oink!"

In the barn, there are \_\_\_\_\_ (3). These animals have fluffy wool. They say "baa!"

The \_\_\_\_\_ (4) live in the coop. They lay eggs. They say "cluck, cluck!"

In the field, there are \_\_\_\_\_ (5). These animals are strong and help the farmer. They have manes and say "neigh!"

In the yard, there are small \_\_\_\_\_ (6). These animals jump around. They have long horns, short hair and say "baa!" like sheep but are smaller.

The \_\_\_\_\_ (7) live in the pond. They say "quack, quack!" They can fly and swim well.

Lastly, the \_\_\_\_\_ (8) run around the farm. They say "woof!" and keep the farm safe.

Living on a farm is a lot of work, but it is fun. The animals make Sunnybrook Farm a happy place.
