

(.....)

Humans can live almost everywhere, but we often look for three things climate, water and soil. People like a temperate climate. We need water to drink and to help our crops grow. Places with water usually have fertile soil and a temperate climate. As humans, we're good at adapting to the environment around us. We can learn to live in the most difficult environments on earth. Inuit people live in the Arctic regions. Bedouins live in the desert.

1- From reading text **write suitable title** :

2- What do you think about the **purpose** of the author ?

3- From reading text find the word **opposite** of "easy" :

4- From reading text find the word **meaning** of "Cold place" :

5- Look and Write **two sentences** under each picture using this guided words :

(Farmland - Arctic region - fertile soil - Desert - water- too hot - too cold)

1-

2-
