Read

A Read the text quickly. Answer the question.

Were airplanes long ago safe?

Airplanes Then and Now

Airplanes now are very different from airplanes long ago.

Airplanes long ago were very small, so not many people traveled by plane. Now airplanes are very big, and they carry a lot of people. The first airplanes were dangerous, but airplanes today are very safe.

The first airplanes were also slow and didn't fly very far. Airplanes now are very fast and can fly to places far away. They carry people, letters, food, and other things to many places around the world.
