

PART 4

Questions 15 to 20

Read the texts about three different people. For each question, choose the correct person (A, B or C) which fits the description. Circle the correct answer A, B or C.

A	Winston My hobby is travelling, so I work as a travel writer. As a travel writer, I go to many countries and visit their attractions. Normally, I bring along a camera and a notebook to record everything that I have experienced in each place. Then, when I am back to office, I will organise what I have collected and post them online. Sometimes, I will post videos instead of articles. I am very happy with this job because I can give people advice before they travel to the places that I have been to.
B	Karina The moment I left college with a diploma in game design, I started thinking what job suited me the best. Weeks later, I became a video game tester. This job is easy, but it can be tiring when I have to test one game after another for hours. As a video game tester, I need to work through different new video games using a variety of devices. Before a game is available for sale, I need to test it to make sure that the experience is a pleasant one. If there are any bugs or errors, I have to report them to my supervisor so that they can be fixed.
C	Giselle I've been working as a taster in an ice cream factory for almost five years. I chose this job because I am a big fan of ice cream. Every day, I try about twenty different flavours of ice cream with three samples for each flavour. Although I have to taste ice cream every day, I know I'll never ever get tired of the frozen sweet food, not to mention the job that pays me to taste my favourite dessert.

A	Winston
B	Karina
C	Giselle

0.	This person graduated from college.	B
15.	This person tours different tourist spots.	
16.	This person has to report all technical problems.	
17.	This person judges the quality of a type of food product.
