(P) of

(C) although

(F) more

(J) do

(M) also

(Q) too

Which parts of the plant \_\_\_\_\_ we usually eat? When we eat  
(1)  
asparagus, we are eating the stem. When we eat spinach or lettuce, we are eating  
the plant's leaves. We eat the fruit of squash, cucumber and tomato plants.  
\_\_\_\_\_ we eat corn or peas, we are eating seeds. Radish and carrot are  
(2)  
actually roots. We eat the flowers of cauliflower and broccoli plants.

We eat \_\_\_\_\_ than one part of some plants - the root of the beet plant  
(3)  
is what most people like to eat. The leaves are also good \_\_\_\_\_ salads. We  
(4)  
eat the root of the onion plant but some people \_\_\_\_\_ enjoy the stems for  
(5)  
\_\_\_\_\_ milder flavour. Some plant parts are poisonous, like the leaves of the  
(6)  
tomato plants.

Years ago, people \_\_\_\_\_ not even eat the fruits of the tomato plant  
(7)  
\_\_\_\_\_ today, we know tomatoes are a wonderful source \_\_\_\_\_  
(8) (9)  
vitamins. They are also delicious, sliced or chopped. They can be used in salads, cooked  
into spaghetti sauce or processed \_\_\_\_\_ ketchup.  
(10)
