SUMMER CAMP IN EDINBURGH

by Emma Lee, age 12

I've just come back from a summer camp I did in Scotland and I'd like to tell you about it. It was my very first holiday without my family so I was a little worried at first. My mother drove me to the airport early in the morning and by quarter to seven I was on the plane by myself.

The flight lasted one hour and a half. During the journey, I made friends with another girl, Ida, who was going to the same summer camp. She was from Denmark but her English was quite good. When we arrived, we found a young lady waiting for us just outside the airport.

The summer camp only lasted twelve days, but I did so many things that it seemed much longer. In the morning we could do different activities: I really enjoy art so I chose a drawing course and improved my cartoon drawing skills. We also did sports I often do, like horse riding, table tennis and football. Ida also asked me to join the guitar course so now I can play a few songs.

When I came back a few days ago I was glad to see my family again, but I was also a little sad because I was going to miss my new friends from the summer camp. Anyway, Ida and I text each other every day and she promised she will visit me next month.

MY ORGANIC GARDEN

by Larry Davidson, age 13

Last year my family and I started to make our own fruit and vegetable garden. We wanted to do something for our planet so we decided to grow our own plants organically. This means that we only use natural ways to look after them. For example, we put our old fruit and vegetables on the ground where the plants grow, but other people just throw all their old food in the bin. Also, now we grow our own fruit and vegetables, so we don't need to buy them.

Having an organic garden is clearly a healthier option because the fruit and vegetables you grow will be safe for people and animals, too. We had to work very hard. At first, we were afraid because we might not have enough time to do everything, but then we realised that each of us could look after the garden on different days.

To make our garden we used a large wooden box which was about the size of our kitchen table. We cleaned it and made 20 holes at the bottom for the water to drain out. We covered the holes with some little stones and the soil where the plants could grow.

Then we planted very tiny plants and watered them every day. On the left we planted tomatoes, onions, carrots and potatoes, while on the right there were a few melons and strawberries. In about a month we picked our first fruits and vegetables. We were so excited when he had them for dinner!
