# Education for All

A. Watch the video carefully and fill the gaps!

Approximately, \_\_\_\_\_ children don't have the opportunity to go to school every day. This is the same number as the \_\_\_\_\_ of people that live in Thailand, imagine an entire country missing out on their education.

Out of the \_\_\_\_\_ children that can't go to school every day, \_\_\_\_\_ of them will never go to school, either because of money or there isn't a school in the area. Most of the kids that aren't able to go to school are girls, one of the \_\_\_\_\_ places for school is Africa because \_\_\_\_\_ kids can't go to school there, and \_\_\_\_\_ of these are girls. Only \_\_\_\_\_ of these kids will ever graduate high school

This is an amazing story about a girl named Jacinta, at the age of 13 she in Tanzania a country in Africa when her family could no longer afford for her to go to school. So she had to \_\_\_\_\_ out, she then had to work as a \_\_\_\_\_ 18 hours a day and only made \$13 a month. Then a \_\_\_\_\_ called Camfed raised money for Jacinta and her family so that she would not have to work anymore and could go back to school.

Later she was sent home and had the opportunity to start school once again so she headed back to school, after she went to school she got a great job and was able to send her brothers and sisters to school.

But it's not just the kids and families that don't have enough money, it's there's not \_\_\_\_\_ teachers. For example, in India they need about more teachers and in West Africa they needed about \_\_\_\_\_ more teachers. But for every kids in the world to be educated, we would need approximately five million more teachers. When adults don't get \_\_\_\_\_ education to his kids, it means two bad things. For example if you aren't \_\_\_\_\_ you can't get a job, and you can't get a job you can't make any money.

There's about \_\_\_\_\_ adults who still lacked basic literacy skills, and also if you don't know what literacy, means reading or writing.

So ways that you can help is by \_\_\_\_\_ to a charity as an UNICEF or campaign. Campaign that is a charity that helps girls in Africa go to school, while UNICEF is a charity that helps kids all over the world.

But what would really help is \_\_\_\_\_ the word, tell your friends and families about these charities and to donate. The last thing you can do is just be \_\_\_\_\_ for your own education and take school seriously. But this can't just happen on its own, we need to do it.

Education is something that not everybody has, so you should \_\_\_\_\_ your education because when we don't learn, the world never changes.
