Name: _____ Roll number:_____ Section:_____ Worksheet#03

Measurements (length) & Representation Of Numbers On A Number Line

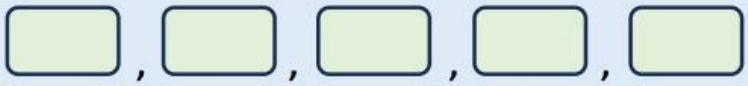

Q#01: Choose the suitable units for measuring the lengths of given objects.

(i) Width of a dining table.	centimetres / metres / kilometres
(ii) Distance between Ayub Park and Shakarparian.	centimetres / metres / kilometres
(iii) Length of a knife.	centimetres / metres / kilometres
(iv) Length of a ladder.	centimetres / metres / kilometres
(v) Length of a stapler.	centimetres / metres / kilometres

Q#02: (a) Complete the missing boxes shown on the given number line.

(b) Write down the whole numbers between 837 and 843.

Q#03: The length of a pole is 8m 3cm. Write the length of the pole in centimetres only.

Solution:

1m = ☐ cm

8m = ☐ × ☐ cm

= ☐ cm

Length of pole = ☐ cm + ☐ cm

= ☐ cm

Q#04: Match the columns.

A	B
1m + 10m 1cm	10 000m
10m 1cm	100cm
10km	11m 1cm
10m 1cm – 1cm	1 001cm
1m	10m

Q#05: Subtract 276km 479m from 309km 581m.(Do working on rough notebook)

Solution:

	3	0	9	km	5	8	1	m
☐	2	7	6	km	4	7	9	m
	☐	☐	☐	km	☐	☐	☐	m

Q#06: Find the total of 39m 549cm and 157m 260cm.

Solution:

	0	3	9	m	5	4	9	cm
☐	1	5	7	m	2	6	0	cm
	☐	☐	☐	m	☐	☐	☐	cm
