

Adding Integers with Same signs

Use the number line to solve the following problems:

1. $3 + 3 =$ _____

positive negative

2. $-7 + (-2) =$ _____

positive negative

3. $-4 + (-1) =$ _____

Positive negative

4. $-5 + (-3) =$ _____

Positive negative

5. $-2 + (-4) =$ _____

Positive negative

6. $5 + (-7) =$

7. $-13 + (8) =$

8. $11 + (-9) =$

9. $-3 + 15 =$

10. $4 + (-4) =$

Real-World Problem Solving

1. You have \$250 in your bank account. On Monday you went shopping and spent \$75.
How much money do you have in your bank account now?
